

P-74 CleanLOGIC™ RACING TEAM INFORMATION

Built in 1967, the current P-74 has raced for 40 years. The current team members experience with this boat includes 37 of those years. Driven by Steve Tustison (driver of the year 2004 and 2006) with rider Jeff Hansen (rider of the year 2004) the P-74 has won the last three Summer National Championships (2004, 2005, 2006). This unprecedented achievement can be attributed to the hard work of a dedicated crew, reliable engines designed and balanced to the set up of the boat, a hull that for 40 years has “always landed straight”, the applied intelligence of the driver and a driver/rider team that trusts the boat and each other.

The P-74 Racing Team would like to thank its sponsors and contributors on whom its success relies.

Sponsors:
